

APPENDIX K: Emergency Preparedness and Response

Background:

This standalone appendix may be utilized by the state during emergency situations to request amendment to its approved waiver. It includes actions that states can take under the existing Section 1915(c) home and community-based waiver authority in order to respond to an emergency. Other activities may require the use of various other authorities such as the Section 1115 demonstrations or the Section 1135 authorities.ⁱ This appendix may be completed retroactively as needed by the state.

Appendix K-1: General Information

General Information:

A. State: _____ Washington _____

B. Waiver Title: Individual and Family Services

C. Control Number: WA.1186

D. Type of Emergency (The state may check more than one box):

<input checked="" type="checkbox"/>	Pandemic or Epidemic
<input type="checkbox"/>	Natural Disaster
<input type="checkbox"/>	National Security Emergency
<input type="checkbox"/>	Environmental
<input type="checkbox"/>	Other (specify):

E. **Brief Description of Emergency.** *In no more than one paragraph each*, briefly describe the: 1) nature of emergency; 2) number of individuals affected and the state’s mechanism to identify individuals at risk; 3) roles of state, local and other entities involved in approved waiver operations; and 4) expected changes needed to service delivery methods, if applicable. The state should provide this information for each emergency checked if those emergencies affect different geographic areas and require different changes to the waiver.

On February 29th, 2020 Governor Jay Inslee declared a state of emergency in response to new cases of COVID-19, directing state agencies to use all resources necessary to prepare for and respond to the outbreak. The risk posed by a virus outbreak depends on factors including how well it spreads between people, the severity of the illness it causes, and the medical or other measures in place to control the impact of the virus (for

example, vaccine or treatment medications). COVID-19 is spreading in several communities in Washington, the risk of exposure is increasing for people who live in our state. Healthcare workers caring for patients with COVID-19 are at elevated risk of exposure. Those who have had close contact with persons with COVID-19 are at elevated risk of exposure. Travelers returning from affected international locations

where community spread is occurring are at elevated risk of exposure. Our knowledge of COVID-19 is still rapidly evolving. Individuals who are sick are advised to stay home.

As of March 3rd, 2020 there are 162 confirmed cases 22 total fatalities of COVID-19. This number is expected to grow.

DDA is in the process of developing emergency plans to assist communities affected by COVID-19. A number of requirements we have committed to in our state plan and waiver applications are dependent on staff and provider ability to perform tasks. Due to the evolving nature of this crisis we may reach a point where we must adjust service delivery methods, suspend home visits, and shift workload priorities due to staff shortages to in order to meet immediate health and safety needs.

F. Proposed Effective Date: Start Date: 3.1.2020_Anticipated End Date: 2.28.2021

G. Description of Transition Plan.

IFS waiver participants will transition to emergency service status as soon as it becomes evident that they are impacted by the COVID-19 outbreak. This will be evidenced by contraction of COVID-19 by the waiver participant, their provider or their housemate, local quarantines, or other guidance of isolation or precautionary measures issued by local or federal health departments.

H. Geographic Areas Affected:

All

I. Description of State Disaster Plan (if available) Reference to external documents is acceptable:

<https://www.governor.wa.gov/news-media/inslee-issues-covid-19-emergency-proclamation>

Appendix K-2: Temporary or Emergency-Specific Amendment to Approved Waiver

Temporary or Emergency-Specific Amendment to Approved Waiver:

These are changes that, while directly related to the state's response to an emergency situation, require amendment to the approved waiver document. These changes are time limited and tied specifically to individuals impacted by the emergency. Permanent or long-ranging changes will need to be incorporated into the main appendices of the waiver, via an amendment request in the waiver management system (WMS) upon advice from CMS.

a. ___ Access and Eligibility:

i. ___ Temporarily increase the cost limits for entry into the waiver.

[Provide explanation of changes and specify the temporary cost limit.]

N/A

ii. ___ Temporarily modify additional targeting criteria.

[Explanation of changes]

N/A

b. ___ Services

i. ___ Temporarily modify service scope or coverage.

[Complete Section A- Services to be Added/Modified During an Emergency.]

ii. ___ Temporarily exceed service limitations (including limits on sets of services as described in Appendix C-4) or requirements for amount, duration, and prior authorization to address health and welfare issues presented by the emergency.

[Explanation of changes]

DDA proposes to extend the aggregate funding limits on the Individual and Family Services waiver. The amount of budget expansion would be determined on a case by case basis through prior approval for specific service requests. Respite provided out of state may be provided in excess of 30 days on a case by case basis. Community engagement and staff/family consultation may be provided to more than one individual at a time with a rate reduction when providing service in a 2:1 or group setting. Specialized Equipment and Supplies will cover items related to health and safety such as personal protective equipment, disinfection supplies, not otherwise available on the Medicaid state

plan. Waiver transportation service will expand to travel to non-waiver service such as transportation to another family members home, when that transportation is required to prevent illness or meet immediate health and safety needs. Expand limit and provider type in staff family consultation to include emergency preparedness consultation support from a provider trained in emergency management or similar. All waiver services, except goods, respite care, may be offered remotely by providers when travel to the waiver participant is not possible due to COVID-19 infection. Approval for remote support will require a prior approval by DDA.

iii. ___ Temporarily add services to the waiver to address the emergency situation (for example, emergency counseling; heightened case management to address emergency needs; emergency medical supplies and equipment; individually directed goods and services; ancillary services to establish temporary residences for dislocated waiver enrollees; necessary technology; emergency evacuation transportation outside of the scope of non-emergency transportation or transportation already provided through the waiver).

[Complete Section A-Services to be Added/Modified During an Emergency]

iv. ___ Temporarily expand setting(s) where services may be provided (e.g. hotels, shelters, schools, churches) Note for respite services only, the state should indicate any facility-based settings and indicate whether room and board is included:

[Explanation of modification, and advisement if room and board is included in the respite rate]:

Direct care services Respite Care, and 1:1 services Positive Behavior Support, staff/family consultation, crisis diversion bed services, behavioral health stabilization services- positive behavior support, nurse delegation, skilled nursing (not otherwise covered under the Medicaid state plan and not available when nursing is available in the quarantine setting) may be provided in a hotel, shelter, church, or alternative facility based setting or the home of a direct care worker when the waiver participant is displaced from their home because of quarantine or hospitalization or when providers are unavailable due to illness or business closure.

Temporarily allow for Positive Behavior Support and Staff/Family Consult to be provided in a non-integrated setting (such as a hospital or other quarantine site) when DDA identifies that no other alternatives are available and a non-integrated setting is the only service setting that service may be offered to meet an individual's health and safety needs. This will only be authorized when the support the waiver service provider is offering is not otherwise funded by another resource.

This may include other group settings such as a gymnasium or portable if provider networks become so depleted that there are no other options to provide direct care in the client's home.

The direct supports provided through these services (see service descriptions below) will not duplicate the supports already available in that setting.

v. ___ Temporarily provide services in out of state settings (if not already permitted in the state's approved waiver). [Explanation of changes]

Respite provided out of state may be provided in excess of 30 days on a case by case basis with prior approval by DDA.

c. ___ Temporarily permit payment for services rendered by family caregivers or legally responsible individuals if not already permitted under the waiver. Indicate the services to which this will apply and the safeguards to ensure that individuals receive necessary services as authorized in the plan of care, and the procedures that are used to ensure that payments are made for services rendered.

N/A

d. ___ Temporarily modify provider qualifications (for example, expand provider pool, temporarily modify or suspend licensure and certification requirements).

i. ___ Temporarily modify provider qualifications.

[Provide explanation of changes, list each service affected, list the provider type, and the changes in provider qualifications.]

Temporarily allow provider enrollment or re-enrollment with modified risk screening elements such as onsite visits or fingerprint checks, or modify training requirements, when requested by the waiver participant to all service providers.

When needed, suspend provider licensing or certification for up to 1 year when COVID 19 pandemic impacts ability for providers to obtain license or certification due to state staff or service provider availability to all service providers.

Respite Care providers include currently contracted Positive Behavior Support providers.

ii. ___ Temporarily modify provider types.

[Provide explanation of changes, list each service affected, and the changes in the provider type for each service].

Expand provider types for specialized equipment and supplies and assistive technology including the use of a purchase card and community choice guides in order to purchase items from nontraditional vendors who have necessary items in stock when supply or cost impacts occur due to COVID 19 on a case by case basis.

iii. ___ Temporarily modify licensure or other requirements for settings where waiver services are furnished.

[Provide explanation of changes, description of facilities to be utilized and list each service provided in each facility utilized.]

When needed, suspend provider licensing or certification for up to 1 year for residential providers when COVID 19 pandemic impacts ability for providers to obtain license or certification due to state staff or service provider availability to Group Homes, LSRs, Adult Day Care, Group Care Facility, Licensed foster home, for respite

e. ___ Temporarily modify processes for level of care evaluations or re-evaluations (within regulatory requirements). [Describe]

Reassessments of level of care may be postponed up to one year and services will continue on a case by case basis when conditions do not allow a waiver participant, their representative, or DDA staff to participate in a reassessment due to illness or quarantine to allow sufficient time for the case manager to complete the annual reassessment paperwork.

For service plans that are expiring and currently meeting an affected waiver participant's needs, but a new person centered service plan is unable to be developed due to ongoing COVID-19 impacts, the time limit to approve the plan may be extended on a case by case basis when monthly remote or telephonic monitoring is provided to ensure the plan continues to meet the participant's needs.

Telephonic assessments may occur in place of face-to-face assessments on a case by case basis until impacts of COVID-19 are resolved. Telephonic Initial Assessments will be conducted when needed to prevent exposure related to COVID-19.

For Initial CARE assessments, staff may complete the assessment and person-centered service plan via the telephone or other electronic means and then do a brief in-person visit before moving the assessment to current.

If the pre-visit questionnaire response indicates it is not safe to do an in-person visit services can be authorized prior to an in-person visit occurring.

- All initial CARE assessments may be sparse, ensuring that mandatory fields are completed with the minimum necessary to complete a minimal care plan.

Annual assessment Inter-rater reliability monitoring will be postponed up to 1 year when workforce is limited due to COVID-19 or when the client's household is impacted by COVID-19.

f. ___ Temporarily increase payment rates

[Provide an explanation for the increase. List the provider types, rates by service, and specify whether this change is based on a rate development method that is different from the current approved waiver (and if different, specify and explain the rate development method). If the rate varies by provider, list the rate by service and by provider].

To respond effectively to the COVID-19 outbreak, the state requires flexibility to adjust providers' rates to ensure that sufficient providers are available for clients. The state may reimburse providers with an additional add on COVID-19 negotiated rate. This applies to all services available under the approved waiver on a case by case basis when increased rate is required to maintain paid staff due to risk factors associated with COVID-19 or other extraordinary circumstances recognized by DDA. Negotiated COVID add-on rates will be based on current market factors and additional costs incurred by the provider.

g. ___ Temporarily modify person-centered service plan development process and individual(s) responsible for person-centered service plan development, including qualifications.

[Describe any modifications including qualifications of individuals responsible for service plan development, and address Participant Safeguards. Also include strategies to ensure that services are received as authorized.]

Person centered service plans/revisions may be approved with a retroactive approval date for service needs identified to mitigate harm or risk directly

related to COVID-19 impacts. Telephonic (or other Information Technology Medium) assessments may occur when the assessment cannot occur due to impacts of COVID-19.

Verbal approval may be used in place of written signature for PCSP approvals by the client and/or legal guardian when necessary.

h. Temporarily modify incident reporting requirements, medication management or other participant safeguards to ensure individual health and welfare, and to account for emergency circumstances. [Explanation of changes]

Allow for entry of incidents into the Incident Reporting System outside of typical timeframes in instances in which staff shortages due to COVID-19 occur. Response to incidents will not be impacted.

i. Temporarily allow for payment for services for the purpose of supporting waiver participants in an acute care hospital or short-term institutional stay when necessary supports (including communication and intensive personal care) are not available in that setting, or when the individual requires those services for communication and behavioral stabilization, and such services are not covered in such settings.

[Specify the services.]

Allow payment for communication assistance and personal care through Positive Behavior Support and staff/family consultation for purposes of supporting 1915(c) enrollees who are in an acute care hospital or receiving a short-term institutional stay on a case by case basis when prior approval by DDA is received. Services will not be authorized if otherwise available from another resource.

j. Temporarily include retainer payments to address emergency related issues.

[Describe the circumstances under which such payments are authorized and applicable limits on their duration. Retainer payments are available for habilitation and personal care only.]

N/A

k. Temporarily institute or expand opportunities for self-direction.

[Provide an overview and any expansion of self-direction opportunities including a list of services that may be self-directed and an overview of participant safeguards]

N/A

l. ___ Increase Factor C.

[Explain the reason for the increase and list the current approved Factor C as well as the proposed revised Factor C]

N/A

m. ___ Other Changes Necessary [For example, any changes to billing processes, use of contracted entities or any other changes needed by the State to address imminent needs of individuals in the waiver program]. [Explanation of changes]

Allow beneficiaries to receive fewer than one service per month for a period of ninety (90) days without being subject to discharge

Contact Person(s)

A. The Medicaid agency representative with whom CMS should communicate regarding the request:

First Name:	MaryAnne
Last Name	Lindeblad
Title:	Medicaid Director
Agency:	Health Care Authority
Address 1:	626 8 th Ave SE
Address 2:	
City	Olympia
State	WA
Zip Code	98501
Telephone:	360-725-1863
E-mail	Maryanne.lindeblad@hca.wa.gov
Fax Number	

B. If applicable, the State operating agency representative with whom CMS should communicate regarding the waiver is:

First Name:	Evelyn
Last Name	Perez
Title:	Assistant Secretary
Agency:	Developmental Disabilities Administration
Address 1:	1009 College St SE

Address 2:	MS 45310
City	Lacey
State	WA
Zip Code	98503
Telephone:	360-407-1564
E-mail	Evelyn.Perez@dshs.wa.gov
Fax Number	360-407-0954

8. Authorizing Signature

Signature: _____
 /s/ _____
 State Medicaid Director or Designee

Date:	03/12/2020

Service Specification
<i>Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:</i>

Service Definition (Scope):

Assistive Technology: Items, equipment, or product systems, not related to a client’s physical health, that are used to increase, maintain, or improve functional capabilities of waiver participants, as well as supports to directly assist the participant and caregivers to select, acquire, and use the technology.

Assistive technology includes:

- (1) The evaluation of the needs of the waiver participant, including a functional evaluation in their customary environment;
- (2) Purchasing, leasing, or otherwise providing for the acquisition of assistive technology devices;
- (3) Selecting, designing, fitting, customizing, adapting, applying, retaining, repairing, or replacing assistive technology devices;
- (4) Coordinating and using other therapies, interventions, or services with assistive technology devices, such as those associated with existing education and rehabilitation plans and programs;
- (5) Training or technical assistance for the participant and/or if appropriate, the child's or adult’s family; and
- (6) Training or technical assistance for professionals, including individuals providing education and rehabilitation services, employers, or other individuals who provide services to, employ, or are otherwise involved in the assistive technology related life functions of children or adults with disabilities.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- 1) Assistive technology is limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.
- 2) Clinical and support needs for assistive technology are identified in the waiver participant's DDA person-centered assessment and documented in the person-centered service plan.
- 3) Assistive technology may be authorized as a waiver service by obtaining an initial denial of funding or information showing that the technology is not covered by Medicaid or private insurance.
- 4) The Department does not pay for experimental technology.
- 5) The Department requires the waiver participant's treating professional's written recommendation regarding her/his need for the technology. This recommendation must take into account that:
 - a) The treating professional has personal knowledge of and experience with the requested assistive technology; and
 - b) The treating professional has recently examined the waiver participant, reviewed her/his medical records when applicable, and conducted a functional evaluation.
- 6) The Department may require a written second opinion from a department selected professional that meets the same criteria in WAC 388-845-0420 (concerning who is a qualified provider of assistive technology) above.
- 7) The dollar limitations for the waiver participant's IFS Waiver annual allocation limit the amount of assistive technology service s/he is authorized to receive.**

Service Definition (Scope):			
<p>Transportation: Reimbursement for transporting a participant to and from waiver funded services specified in the participant's Person-Centered Service Plan. Waiver transportation services cannot duplicate other types of transportation available through the Medicaid State Plan, EPSDT, or included in a provider's contract. Waiver transportation is provided in order for the waiver participant to access a waiver service, such as summer camp (respite service), when without the transportation they would not be able to participate.</p> <p>Waiver transportation is different from Personal Care transportation in that it does not provide transportation to and from shopping or medical appointments.</p> <p>Whenever possible, the person will use family, neighbors, friends, or community agencies that can provide this service without charge.</p>			
Specify applicable (if any) limits on the amount, frequency, or duration of this service:			
<p>1) Support needs for transportation services are identified in the waiver participant's DDA person-centered assessment and documented in her/his person-centered service plan.</p> <p>2) Transportation to/from medical or medically related appointments is a Medicaid transportation service and is to be considered and used first.</p> <p>3) Transportation is offered in addition to medical transportation but cannot replace Medicaid transportation services.</p>			

4)Transportation is limited to travel to and from a waiver service.

5)Transportation does not include the purchase of a bus pass.

6)This service does not cover the purchase or lease of vehicles.

7)Reimbursement for provider travel time is not included in this service.

8)Reimbursement to the provider is limited to transportation that occurs when the waiver participant is with the provider.

9)The waiver participant is not eligible for transporation services if the cost and responsiblity for transporation is already included in the provider's contract and payment.

10)The dollar limitations of the waiver participant's annual allocation in the IFS Waiver limit the amount of transportation

~~—services s/he is authorized to receive.~~

Service Specification

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

Service Definition (Scope):

Clinical and therapeutic services that assist unpaid caregivers and/or paid support staff in carrying out individual treatment/support plans, and that are not covered by the Medicaid state plan, and are necessary to improve the individual's independence and inclusion in their community. This service is not intended to instruct paid staff on the competencies relative to their field they are required to have or to provide training required to meet provider qualifications, but rather to support staff in meeting the individualized and specific needs of the waiver

participant. The person-centered service plan, developed by the case/resource manager in collaboration with the waiver participant and the waiver participant's family, provides the high-level summary of services and goals for each specified waiver service. The plan developed by the consultant provides step-by-step details necessary to reach a goal by implementing a specific course of supports by the participant's family or paid providers.

Consultation, such as assessment, the development, training and technical assistance to a home or community support plan, and monitoring of the provider and individual in the implementation of the plan, is provided to families or direct staff to meet the specific needs of the waiver participant as outlined in the waiver participant's person-centered service plan, including:

- (a) Health monitoring;
- (b) Positioning and transfer;
- (c) Basic and advanced instructional techniques;
- (d) Positive behavior support;
- (e) Augmentative communication systems;
- (f) Diet and nutritional guidance;
- (g) Disability information and education;
- (h) Strategies for effectively and therapeutically interacting with the participant;
- (i) Environmental consultation;
- (j) Individual and family counseling;
- (k) Assistive technology; and
- (l) Assistance with managing the family's daily schedule and home.

(g) Emergency Preparedness

Supports may be provided telephonically or through another information technology medium.

Service may be provided in a group or 1:1 setting

Supports may be provided out of home such as a hotel, shelter, church, or alternative facility based setting or the home of a direct care worker when the waiver participant is displaced from their home because of quarantine or hospitalization or when providers are unavailable due to illness or business closure.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- 1) Clinical and support needs for staff/family consultation and training are identified in the waiver participant's DDA person-centered assessment and documented in her/his person-centered service plan.
- 2) Expenses to the family or provider for room and board or attendance, including registration, at conferences are excluded as a service under staff/family consultation and training.
- 3) Services will not duplicate services available through third party payers or social service organizations or schools.
- 4) The dollar limitations in the waiver participant's annual allocation in the IFS Waiver limit the amount of staff/family consultation and training service s/he is authorized to receive.

Service Definition (Scope):			
<p>Respite: Short-term intermittent relief for persons who normally provide care for and live with the waiver participant. It is also short-term intermittent relief for waiver participants from persons who normally provide care for and live with the waiver participant. Respite care includes personal care services, authorized household tasks and protective supervision as specified in the waiver participant's person-centered service plan.</p> <p>The following identify waiver participants who are eligible to receive respite care:</p> <ol style="list-style-type: none"> 1) The waiver participant lives in her/his family home and no person living with her/him is contracted by DSHS to provide the waiver participant with a services; or 2) The waiver participant lives with a family member who is her/his primary caregiver and who is a contracted provider by DSHS to provide her/him with a service; or 3) The waiver participant lives with a caregiver who is paid by DDA to provide supports as: <ol style="list-style-type: none"> (a) A contracted companion home provider; or (b) A licensed children's foster home provider. <p>Someone who lives with the waiver participant may be the respite provider as long as she or he is not the person who normally provides care for the individual and is not contracted to provide any other DSHS paid service to the individual.</p> <p>Respite care can be provided in the following locations:</p> <ol style="list-style-type: none"> (a) waiver participant's home or place of residence; (b) Relative's home; (c) Licensed children's foster home; (d) Licensed, contracted and DDA certified group home; (e) Licensed assisted living facility contracted as an adult residential center; (f) Adult residential rehabilitation center; (g) Licensed and contracted adult family home; (h) Children's licensed group home, licensed staffed residential home, or licensed childcare center; (i) Other community settings such as camp, senior center, community organizations, informal clubs, libraries or adult day care center. (j) hotel, shelter, church, alternative facility, or provider's home when client is displaced due to COVID-19 <p>Additionally, the waiver participant's respite care provider may take her/him into the community while providing respite services.</p> <p>Respite Service will not duplicate the services available under the State Plan.</p>			
Specify applicable (if any) limits on the amount, frequency, or duration of this service:			
<ol style="list-style-type: none"> 1) Clinical and support needs for respite care are identified and documented in the waiver participant's DDA person-centered service plan (PCSP). Respite hours are limited to those available in the annual allocation, additional hours require prior approval by DDA. 2) Respite cannot replace: <ol style="list-style-type: none"> (a) Daycare while her/his parent or guardian is at work. 			

- (b) Personal Care Hours available under the state plan.
- 3) Respite care providers have the following limitations and requirements:
- (a) If respite is provided in a private home, the home must be licensed unless it is the waiver participant's home or the home of a relative of specified degree per WAC 388-825-345 (concerning "related" providers that are exempt from licensing);
- (b) The respite care provider cannot be the spouse of the caregiver receiving respite if the spouse and the caregiver reside in the same residence; and
- (c) If the waiver participant receives respite from a provider who requires licensure, the respite care services are limited to those age-specific services contained in the provider's license.
- (4) The individual respite provider may not provide:
- (a) Other DDA services for the waiver participant during the respite care hours; or
- (b) DDA paid services to other persons during the respite care hours.
- (5) The primary caregiver may not provide other DDA services for the waiver participant during the respite care hours.
- 6) If the waiver participant's personal care provider is the parent and the individual lives in the parent's adult family home, the individual may not receive respite.
- 7) DDA may not pay for any fees associated with the respite care; for example, membership fees at a recreational facility, or insurance fees.
- 9) If the waiver participant requires respite care from a licensed practical nurse (LPN) or a registered nurse (RN), respite services may be authorized using an LPN or RN. Respite services are limited to the assessed respite care hours identified in the PCSP. Respite provided by a LPN or RN requires a prior approval by the Regional Administrator or designee.

Service Definition (Scope):
Community Engagement: Community engagement services are designed to increase a waiver participant's connection to and engagement in formal and informal community supports. Services are designed to develop

creative, flexible, sustainable and supportive community resources and relationships for individuals with developmental disabilities. Waiver participants are introduced to the community resources and supports that are available in their area and supported to develop skills that will facilitate integration into their community. Outcomes for this service include skill development, positive relationships, valued community roles and involvement in preferred community activities/organizations/groups/projects/other resources.

May be offered in a 1:1 or group setting

Supports may be provided telephonically or through another information technology medium.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- 1) Support needs for community engagement services are identified in the waiver participant's DDA person-centered assessment and documented in her/his person-centered service plan.
- 2) The waiver participant may not receive community engagement services if s/he is receiving residential habilitation services as defined in WAC 388-845-1500 (concerning what are residential habilitation services) because their residential provider can meet this need.
- ~~3) The dollar limitations for the waiver participant's IFS Waiver annual allocation limit the amount of community engagement service s/he is authorized to receive.~~
- 4) Community engagement services do not pay for the following costs:
 - a) Membership fees or dues; and/or
 - b) Equipment related to activities; and/or
 - c) The cost of any activities.

Service Specification

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

Service Definition (Scope):

Speech, hearing and language services are available through the waiver when a Medicaid provider is not available in the area in which a child or young adult lives or when the service is not covered due to medical necessity, but is determined necessary for remedial benefit. Speech, hearing and language services are services provided to individuals with speech hearing and language disorders by or under the supervision of a speech pathologist or audiologist.

State law stipulates:
 "Speech-language pathology" means the application of principles, methods, and procedures related to the development and disorders, whether of organic or nonorganic origin, that impede oral, pharyngeal, or laryngeal sensorimotor competencies and the normal process of human communication including, but not limited to, disorders and related disorders of speech, articulation, fluency, voice, verbal and written language, auditory comprehension, cognition/communication, and the application of augmentative communication treatment and devices for treatment of such disorders

"Audiology" means the application of principles, methods, and procedures related to hearing and the disorders of hearing and to related language and speech disorders, whether of organic or nonorganic origin, peripheral or central, that impede the normal process of human communication including, but not limited to, disorders of auditory sensitivity, acuity, function, processing, or vestibular function, the application of aural habilitation, rehabilitation, and appropriate devices including fitting and dispensing of hearing instruments, and cerumen management to treat such disorders.

State law stipulates:

Speech-language pathology” and “Audiology” services must be provided by a person licensed to provide these services in the State of Washington. These requirements are comparable to the qualifications specified in 42 CFR §440.110 (concerning physical therapy, occupational therapy, and services for individuals with speech, hearing and language disorders).

supports may be provided telephonically or through another information technology medium

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

"Speech-language pathology" means the application of principles, methods, and procedures related to the development and disorders, whether of organic or nonorganic origin, that impede oral, pharyngeal, or laryngeal sensorimotor competencies and the normal process of human communication including, but not limited to, disorders and related disorders of speech, articulation, fluency, voice, verbal and written language, auditory comprehension, cognition/communication, and the application of augmentative communication treatment and devices for treatment of such disorders

"Audiology" means the application of principles, methods, and procedures related to hearing and the disorders of hearing and to related language and speech disorders, whether of organic or nonorganic origin, peripheral or central, that impede the normal process of human communication including, but not limited to, disorders of auditory sensitivity, acuity, function, processing, or vestibular function, the application of aural habilitation, rehabilitation, and appropriate devices including fitting and dispensing of hearing instruments, and cerumen management to treat such disorders.

“Speech-language pathology” and “Audiology” services must be provided by a person licensed to provide these services in the State of Washington. These requirements are comparable to the qualifications specified in 42 CFR 440.110 (concerning physical therapy, occupational therapy, and services for individuals with speech, hearing and language disorders).

- The Provider One payment system enforces that Medicaid Benefits to which they are entitled are first accessed through the State Plan.
- This waiver service is only provided to individuals age 21 and over. All medically necessary Speech, Hearing and Language services for children under age 21 are covered in the State Plan pursuant to the EPSDT benefit.

Service Definition (Scope):

Positive Behavior Support and Consultation: Positive behavior support and consultation services provide individualized strategies and supports to promote positive behavior interactions between the individual and their family, friends, community and employer. Individualized behavioral strategies and supports are provided to family and/or providers to promote a consistent and effective ways of interacting and engaging the individual in their environment. Techniques, strategies and supports are implemented to promote effective communication skills and appropriate behaviors of the individual in order to get their needs met.
State regulations stipulate that:

(1) Positive behavior support and consultation may be provided to persons on any of the DDA HCBS waivers and include the development and implementation of programs designed to support waiver participants using:

- (a) Individualized strategies for effectively relating to caregivers and other people in the waiver participant's life; and
- (b) Direct interventions with the person to decrease aggressive, destructive, and sexually inappropriate or other behaviors that compromise their ability to remain in the community (i.e., training, specialized cognitive counseling, functional assessment and positive behavioral supports).

(2) Positive behavior support and consultation may also be provided as a behavior health stabilization service.

supports may be provided telephonically or through another information technology medium. Supports may be provided out of home such as a hotel, shelter, church, or alternative facility based setting or the home of a direct care worker when the waiver participant is displaced from their home because of quarantine or hospitalization or when providers are unavailable due to illness or business closure.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The services under the IFS waiver are limited to additional services not otherwise covered under the State Plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.

1) Clinical and support needs for positive behavior support and consultation are identified in the waiver participant's DDA

person-centered assessment and documented in the person-centered service plan;

2) DDA and the treating professional will determine the need and amount of service the waiver participant will

receive, subject to the limitations in subsection 3) below.

3) ~~The dollar limitations in the annual allocation in the waiver participant's PCFS Waiver limit the amount of positive behavior~~

support and consultation service the waiver participant is authorized to receive unless provided as a behavioral

health stabilization service.

4) DDA reserves the right to require a second opinion from a Department-selected provider.

(2) Positive behavior support and consultation may also be provided as a behavior health stabilization service.

supports may be provided telephonically or through another information technology medium. Supports may be provided out of home such as a hotel, shelter, church, or alternative facility based setting or the home of a direct care worker when the waiver participant is displaced from their home because of quarantine or hospitalization or when providers are unavailable due to illness or business closure.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

State regulations stipulate that:

- (1) DDA and the treating professional will determine the need and amount of service an individual will receive, subject to the limitations in subsection (2) below.
- (2) DDA reserves the right to require a second opinion from a department selected provider.
- (3) Prior approval by DDA is required.

These services under the Basic Plus waiver are limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization. DDA is collaborating closely with the Health Care Authority to assure that all waiver participants under 21 years of age are accessing Applied Behavior Analysis (ABA) services through the State Plan prior to receiving Positive Behavior Support and Consultation and Behavioral Health Stabilization Services through the waivers. Health Care Authority acknowledges that it may take several years to generate sufficient Applied Behavioral Analysis provider capacity within the Managed Care Organizations (MCOs) to meet the demand for ABA services on the State Plan. During this transition period, waiver participants under the age of 21 will continue to first seek ABA services through their MCOs, document their status when waiver participants are placed on ABA service provider waitlists and access Positive Behavior Support and Consultation through the waiver. To ensure no disruption in services, DDA anticipates a 5 year transition period to align processes with HCA.

These services are only covered under the Waiver when they are outside the definition of service available through the Medicaid State Plan and EPSDT or the child does not meet access to care definitions (i.e., via the Behavioral Health Organization (BHO)). It is anticipated some Waiver participants will not be eligible for these services under the Medicaid State Plan, since an individual must have a mental health (MH) diagnosis to receive mental health State Plan services. A MH diagnosis is not a requirement for enrollment on the Waiver program.

Select one:*

Service Definition (Scope):

Risk Assessment: Risk Assessments are professional evaluations of violent, stalking, sexually violent, predatory and/or opportunistic behavior to determine the need for psychological, medical or therapeutic services.

Risk Assessment was previously labeled Sexual Deviancy Evaluation. The service name was updated to reflect the broader range of behaviors subject to evaluation.

There are no limits to the amount, frequency, or duration of this service. Prior approval by DDA for this service provides appropriate oversight of service utilization.

supports may be provided telephonically or through another information technology medium

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

State regulations stipulate that:

(1) General considerations in evaluating clients. Providers shall: (a) Be knowledgeable of assessment procedures used;(b) Be aware of the strengths and limitations of self-report and make reasonable efforts to verify information provided by the offender;(c) Be knowledgeable of the client's legal status including any court orders applicable. Have a full understanding of the SSOSA and SSODA process and be knowledgeable of relevant criminal and legal considerations;(d) Be impartial; provide an objective and accurate base of data; and(e) Avoid addressing or responding to referral questions which exceed the present level of knowledge in the field or the expertise of the evaluator.

(2) Scope of assessment data.

Comprehensive evaluations under Special Sex Offender Sentencing Alternative and Special Sex Offender Detention Alternative shall include a compilation of data from as many sources as reasonable, appropriate, and available. These sources may include but are not limited to:(a) Collateral information (i.e., police reports, child protective services information, criminal correctional history and victim statements);(b) Interviews with the offender;(c) Interviews with significant others;(d) Previous assessments of the offender conducted (i.e., medical, substance abuse, psychological and sexual deviancy);(e) Psychological/physiological tests;(f) If a report fails to include information specified in (a) through (e) of this subsection, the evaluation should indicate the information not included and cite the reason the information is not included; and(g) Second evaluations shall state whether other evaluations were considered. The decision regarding use of other evaluations prior to conducting the second evaluation is within the professional discretion of the provider. The second evaluation need not repeat all assessment or data compilation measures if it reasonably relies on existing current information. The second evaluation must address all issues outlined in subsection (3) of this section, and include conclusions, recommendations and a treatment plan if one is recommended.

(3) Evaluation reports:(a) Written reports shall be accurate, comprehensive and address all of the issues required for court disposition as provided in the statutes governing Special Sex Offender Sentencing Alternative and Special Sex Offender Detention Alternative;(b) Written reports shall present all knowledge relevant to the matters at hand in a clear and organized manner;(c) Written reports shall include the referral sources, the conditions surrounding the referral and the referral questions addressed; and(d) Written reports shall state the sources of information utilized in the evaluation. The evaluation and written report shall address, at a minimum, the following issues:

(i) A description of the current offense(s) including, but not limited to, the evaluator's conclusion about the reasons for any discrepancy between the official and offender's versions of the offenses;(ii) A sexual history, sexual offense history and patterns of sexual arousal/preference/interest;(iii) Prior attempts to remediate and control offense behavior including prior treatment;(iv) Perceptions of significant others, when appropriate, including their ability and/or willingness to support treatment efforts;(v) Potentiators of offending behavior to include alcohol and drug abuse, stress, mood, sexual patterns, use of pornography, and social and environmental influences;(vi) A personal history to include medical, marital/relationships, employment, education and military;(vii) A family history;(viii) History of violence and/or criminal behavior;(ix) Mental health functioning to include coping abilities, adaptational styles, intellectual functioning and personality attributes; and(x) The overall findings of psychological/physiological/medical assessment when such assessments have been conducted.

(e) Conclusions and recommendations shall be supported by the data presented in the body of the report and include:

(i) The evaluator's conclusions regarding the appropriateness of community treatment;

(ii) A summary of the clinician's diagnostic impressions;

(iii) A specific assessment of relative risk factors, including the extent of the offender's dangerousness in the community at large;

(iv) The client's amenability to outpatient treatment and conditions of treatment necessary to maintain a safe treatment environment.

(f) Proposed treatment plan shall be described in detail and clarity and include:

(i) Anticipated length of treatment, frequency and type of contact with providers, and supplemental or adjunctive treatment;

(ii) The specific issues to be addressed in treatment and a description of planned treatment interventions including involvement of significant others in treatment and ancillary treatment activities;

(iii) Recommendations for specific behavioral prohibitions, requirements and restrictions on living conditions, lifestyle requirements, and monitoring by family members and others that are necessary to the treatment process and community safety;

(iv) Proposed methods for monitoring and verifying compliance with the conditions and prohibitions of the treatment program; and

(v) If the evaluator will not be providing treatment, a specific certified provider should be identified to the court. The provider shall adopt the proposed treatment plan or submit an alternative treatment plan for approval by the court, including each of the elements in WAC 246-930-330 (5)(a) through (d)(DOH admin.code concerning standards and documentation of treatment).

(4) The provider shall submit to the court and the parties a statement that the provider is either adopting the proposed treatment plan or submitting an alternate plan. The plan and the statement shall be provided to the court before sentencing.

Service Definition (Scope):			
Occupational therapy services are available under the waiver when a Medicaid provider is not available in the area in which a child lives or when the service is not covered due to medical necessity, but is determined necessary for remedial benefit.			
This waiver service will in no way impede a child's or young adult's access to services to which they are entitled under EPSDT.			
Before this therapy is offered as a waiver service, DSHS Form 13-734, Documentation of First Use of Medicaid Benefits, is used to document that clients have first accessed services to which they are entitled through the State Plan (including EPSDT).			
State law stipulates:			

"Occupational therapy" is the scientifically based use of purposeful activity with individuals who are limited by physical injury or illness, psychosocial dysfunction, developmental or learning disabilities, or the aging process in order to maximize independence, prevent disability, and maintain health. The practice encompasses evaluation, treatment, and consultation. Specific occupational therapy services include but are not limited to: Using specifically designed activities and exercises to enhance neuro developmental, cognitive, perceptual motor, sensory integrative, and psychomotor functioning; administering and interpreting tests such as manual muscle and sensory integration; teaching daily living skills; developing prevocational skills and play and vocational capabilities; designing, fabricating, or applying selected orthotic and prosthetic devices or selected adaptive equipment; and adapting environments for the handicapped. These services are provided individually, in groups, or through social systems. (An example of OT provided through a social system would be therapy provided in the home environment with the involvement of family members or providers. A goal would be to incorporate therapeutic activities into the individuals natural household routine.)

State law stipulates:

Occupational Therapy" services must be provided by a person licensed to provide Occupational Therapy in the State of Washington. These requirements are comparable to the qualifications specified in 42 CFR §440.110 (concerning physical therapy, occupational therapy, and services for individuals with speech, hearing and language disorders). **supports may be provided telephonically or through another information technology medium**

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- Occupational therapy is limited to the amount determined necessary to meet the needs of the participant. OT will decrease as participant goals are achieved and methods of providing ongoing support through natural routines are determined successful.
- The services under the waiver are limited to additional services not otherwise covered under the state plan, but consistent with waiver objectives of avoiding institutionalization.
- DDA does not pay for treatment determined by DSHS to be experimental.
- DDA and the treating professional determine the need for and amount of service an individual can receive:
 - o DDA reserves the right to require a second opinion from a department selected provider.
 - o State Plan benefits are limited to one Occupational Therapy evaluation at beginning of service and one evaluation at discharge per year and 24 units of Occupational Therapy (which equals approximately 6 hours) per year and up to an additional 24 units of Occupational Therapy per year with expedited prior authorization from the Health Care Authority. State Plan provides a process for limitation extension regarding the scope, amount, duration and frequency of the therapy when requested by the provider. Criteria considered by the Health Care Authority and MCO for limitation extension include: the level of improvement the client has shown to date related to the requested therapy and the reasonably calculated probability of continued improvement if the requested therapy is extended; and the reasonably calculated probability the client's condition will worsen if the requested therapy is not extended.
 - o The Provider One payment system enforces that Medicaid Benefits to which they are entitled are first accessed through the State Plan.

o This waiver service is only provided to individuals age 21 and over. All medically necessary Occupational Therapy services for children under age 21 are covered in the State Plan pursuant to the EPSDT benefit.

Service Definition (Scope):

Peer Mentoring: Peer mentoring involves the provision of support and guidance to a waiver participant and family members of a waiver participant by a person with shared experience. Peer mentors may explain community services and programs and suggest strategies to the waiver participant and family to achieve the waiver participant's goals.

Peer mentoring actively engages participants and family members of participants to share their successful strategies and experiences in navigating a broad range of community resources beyond those offered through the waiver with other waiver participants and their families. Peer mentoring does not provide case management services to a waiver participant; peer mentoring does not include determination of level of care, functional or financial eligibility for services or person-centered service planning. Peer mentoring does provide support to the participant and their family in locating and accessing other community services and programs that may assist the participant to engage in community life or provide supports to the participant.

supports may be provided telephonically or through another information technology medium

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The services under the IFS waiver are limited to additional services not otherwise covered under the State Plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.

1) Support needs for peer mentoring are identified in the waiver participant's DDA person-centered assessment and documented in her/his person-centered service plan.

2) Peer mentors cannot mentor their own family members.

3) ~~The dollar limitations for the waiver participant's annual allocation in the IFS Waiver limit the amount of peer mentoring service s/he is authorized to receive.~~

Service Definition (Scope):
<p>Person-Centered Plan Facilitation: Person-centered planning facilitation is an approach to forming life plans that is centered on the individual. It is used as a life planning model to enable individuals with disabilities or others requiring support to increase personal self-determination. Person-centered planning facilitation includes:</p> <ol style="list-style-type: none"> 1) Identifying and developing a potential circle of support. 2) Exploring what matters to the waiver participant by listening to and learning from the person. 3) Developing a vision for a meaningful life, as defined by the waiver participant. 4) Discovering capacities and assets of the waiver participant and her or his family, neighborhood, and support network. 5) Generating an action plan. 6) Facilitating follow-up meetings to track progress toward goals. <p>Person-Centered Planning Facilitation is a distinctly different service that does not duplicate nor replace the responsibilities of the DDA Case/Resource Manager who is responsible for developing the person-centered service plan, and this service does not replace an individual's person-centered service plan. The person-centered planning facilitators employ methods including total communications techniques, graphic facilitation of meetings and problem solving skills in the development of a person centered plan, such as PATH (Planning Alternative Tomorrows with Hope), MAPS (Making Action Plans), personal futures planning and person centered thinking tools. Person-centered planning facilitators typically organize a circle of people who know and care about the individual and who assist the individual to organize individualized, natural and creative supports to achieve meaningful goals based on the individual's strengths and preferences. This team typically meets with the individual a number of times to build relationships, to explore strengths and interests and to build team unity. Then, in a major planning session that may last two to four hours or more, the team develops a comprehensive plan. The resultant plan may be in any format that is accessible to the individual, such as a document, a drawing or an oral plan recorded on tape or digital media. By definition, person-centered planning facilitation is not a service oriented approach but a broad exploration of an individual's vision for a valued life that offers a platform for the individual and</p>

her/his trusted friends and family members to express this vision and commitments of support without limiting that expression to what can or will be provided by the service system. In Washington State's experience, facilitated person-centered plans have been a source of significant support for individuals in transitional stages of their lives; for example, for young people transitioning from high school into employment and moving out of the family home. Completed facilitated person-centered plans will inform, provide direction and offer details of a waiver participant's desires, goals and preferences to the DDA Case/Resource Manager who jointly develops with the waiver participant a written person-centered service plan based on the DDA assessment. The person-centered planning process is driven by the participant. The person-centered service plan reflects the services and supports that are important for the participant to meet the needs identified through the functional assessment as well as what is important to the individual with regard to preferences for the delivery of services and support.

Supports may be provided telephonically or through another information technology medium.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

- 1) Support needs for person-centered planning facilitation are identified in the waiver participant's DDA person-centered assessment and documented in her/his person-centered service plan.
- 2) Person-centered planning facilitation may include follow up contacts with the waiver participant and her/his family to consult on plan implementation.
- ~~3) The dollar limitations for the waiver participant's annual allocation in the IFS Waiver limit the amount of person-centered planning facilitation service s/he is authorized to receive.~~
- 4) An employee of DDA cannot provide person-centered planning facilitation services.

Service Definition (Scope):

Behavioral Health Stabilization Service-Behavioral Health Crisis Diversion Bed Services:
 Behavioral health stabilization services assist persons who are experiencing a behavioral health crisis. These services are available to individuals determined by behavioral health professionals or DDA to be at risk of institutionalization in a psychiatric hospital without (one or more of) the following services:

- *Behavioral health crisis diversion bed services
- *Positive Behavior support and consultation
- *Specialized psychiatric services

Behavioral health crisis diversion bed services:
 Are short term emergent residential services when the client's living situation is disrupted and the client is at immediate risk of institutionalization. These may be provided in an individual's home or licensed or certified setting. These services are available to eligible waiver participants who are at risk of serious decline of mental functioning and who have been determined to be at risk of psychiatric hospitalization. These services also provide respite to the primary caregiver to promote the individual's return to her/his home.

Most Medicaid mental health services in Washington are provided through a 1915-B waiver, which clarifies Access to Care criteria for those individuals needing more intensive mental health supports. Community mental health services through the waiver are provided through Behavioral Health Organizations (BHOs), which carry out the contracting for local mental health care. Access to Care criteria excludes the DSM diagnoses classes that include mental retardation; learning, motor skills and communication disorders; and pervasive developmental disorders. Individuals with primary diagnoses and functional impairments that are only a result of these diagnoses are not eligible for mental health waiver services. As a result, individuals with these issues must display an additional covered diagnosis in order to be served through the mental health system, must be able to benefit from the intervention, and their unmet needs cannot be met more appropriately by another formal or informal system, such as the Developmental Disabilities Administration or community natural supports.

These services under the Basic Plus waiver are limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization. It is anticipated some waiver participants will not be eligible for these services under the Medicaid State Plan, since an individual must have a mental health (MH) diagnosis to receive mental health State Plan services. A MH diagnosis is not a requirement for enrollment on the Waiver.

DDA works closely with the Behavioral Health Administration (BHA) to prevent duplication of BHO/State Plan BH Services. DSHS's expectation is that any DDA eligible individual who meets the BHA access to care and medical necessity standards will receive behavioral health services through BHOs or Prepaid Inpatient Health Plans (PIHP). Individuals that do not meet access to

care or medical necessity standards for the service type may be served under the behavioral health stabilization services.

Mobile Diversion may be provided telephonically or through another information technology medium.

Supports may be provided out of home such as a hotel, shelter, church, or alternative facility based setting or the home of a direct care worker when the waiver participant is displaced from their home because of quarantine or hospitalization or when providers are unavailable due to illness or business closure.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

Behavioral Health Crisis Diversion Bed Services are limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of preventing institutionalization.

*Behavioral health stabilization services are intermittent and short-term.

*The duration and amount of services needed to stabilize the individual in crisis is determined by a mental health professional and/or DDA.

*Behavioral health stabilization services require prior approval by DDA or its designee.

"Short-term" reflects the fact that these services are not provided on an on-going basis. However, there is no pre-determined limit on the duration of these services. They are provided to individuals who are experiencing a behavioral health crisis and are at risk of psychiatric hospitalization. Once the crisis situation is resolved and the individual is stabilized, behavioral health crisis stabilization services will be terminated. Any ongoing need for positive behavior support and consultation will be met under the stand-alone positive behavior support and consultation services category.

Service Specification

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

Service Definition (Scope):

Behavioral Health Stabilization Services-Positive Behavior Support and Consultation: The purpose of Behavioral Health Stabilization Services - Positive Behavior Support and Consultation is to reduce maladaptive behaviors and support the service recipient's need to remain in the community and prevent institutionalization.

Behavioral Health Stabilization Services - Positive Behavior Support and Consultation is limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.

Behavioral health stabilization services assist persons who are experiencing a behavioral health crisis. These services are available to individuals determined by behavioral health professionals or DDA to be at risk of institutionalization in a psychiatric hospital without (one or more of) the following services:

- *Behavioral health crisis diversion bed services
- *Positive behavior support and consultation
- *Specialized psychiatric services

Positive behavior Support and Consultation:

(1)Includes the development and implementation of programs designed to support waiver participants using:

- a) Strategies for effectively relating to caregivers and other people in the waiver participant's life; and
- b) Direct interventions with the person to decrease aggressive, destructive, and sexually inappropriate or other behaviors that compromise their ability to remain in the community (i.e., training, specialized cognitive counseling).

These services are provided to individuals who are experiencing a behavioral health crisis that overwhelms their family and current providers, placing them at risk of psychiatric hospitalization. Once the crisis situation is resolved and the individual is stabilized, positive behavior support and consultation as a component of behavioral health crisis stabilization services is terminated. Any need for ongoing positive behavior support and consultation is met under the stand-alone positive behavior support and consultation service category.

A positive behavior support and consultation agency is privately-contracted.

Most Medicaid mental health services in Washington are provided through a 1915-B waiver, which clarifies Access to Care criteria for those individuals needing more intensive mental health supports. Community mental health services through the waiver are provided through Behavioral Health Organizations (BHOs), which carry out the contracting for local mental health care. Access to Care criteria excludes the DSM diagnoses classes that include intellectual disabilities; learning, motor skills and communication disorders; and pervasive developmental disorders. Individuals with primary diagnoses and functional impairments that are only a result of these diagnoses are not eligible for mental health waiver services. As a result, individuals with these issues must display an additional covered diagnosis in order to be served through the mental health system, must be able to benefit from the intervention, and their unmet needs cannot be met more appropriately by another formal or informal system, such as the Developmental Disabilities Administration or community natural supports.

Mobile Diversion may be provided telephonically or through another information technology medium.

Supports may be provided out of home such as a hotel, shelter, church, or alternative facility based setting or the home of a direct care worker when the waiver participant is displaced from their home because of quarantine or hospitalization or when providers are unavailable due to illness or business closure.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

*Behavioral health stabilization services are intermittent and short-term.

*The duration and amount of services needed to stabilize the individual in crisis is determined by a mental health professional and/or DDA.

*Behavioral health stabilization services require prior approval by DDA or its designee.

"Short-term" reflects the fact that these services are not provided on an on-going basis. However, there is no pre-determined limit on the duration of these services. They are provided to individuals who are experiencing a behavioral health crisis and are at risk of psychiatric hospitalization. Once the crisis situation is resolved and the individual is stabilized, behavioral health crisis stabilization services will be terminated. Any ongoing need for positive behavior support and consultation will be met under the stand-alone positive behavior support and consultation services category.

These services are only covered under the Basic Plus Waiver when they are outside the definition of service available through the Medicaid State Plan and EPSDT or the child does not meet access to

care definitions (i.e., via the Behavioral Health Organization (BHO)). It is anticipated some Basic Plus Waiver participants will not be eligible for these services under the Medicaid State Plan, since an individual must have a mental health (MH) diagnosis to receive mental health State Plan services. A MH diagnosis is not a requirement for enrollment on the Basic Plus Waiver. DDA works closely with the Behavioral Health Administration (BHA) to prevent duplication of BHO/State Plan BH Services. DSHS's expectation is that any DDA eligible individual who meets the BHA access to care and medical necessity standards will receive behavioral health services through Behavioral Health Organizations (BHOs) or Prepaid Inpatient Health Plans (PIHP). Individuals that do not meet access to care or medical necessity standards for the service type may be served under the behavioral health stabilization services.

Service Specification

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

Service Definition (Scope):

Skilled Nursing: Waiver skilled nursing provides chronic, long-term nursing services to address needs that are not met through the nursing services available in the Medicaid State Plan. Skilled nursing services under the waiver differ in nature, scope, supervision arrangements, or provider type (including provider training and qualifications) from skilled nursing services in the State plan.

The services under the waiver are limited to additional services not otherwise covered under the state plan, including EPSDT, but consistent with waiver objectives of avoiding institutionalization.

Services include nurse delegation services provided by a registered nurse, including the initial visit, follow up instruction, and/or supervisory visits.

Services listed in the person-centered service plan must be within the scope of the State's Nurse Practice Act.

Safeguards that the State has in place to prevent duplicate billing for skilled nursing and nurse delegation include the following: 1) Skilled nursing requires a prior approval by DDA and 2) skilled nursing hours are determined by DDA Nursing Care Consultant's skilled nursing assessment.

Applicable supports may be provided telephonically or through another information technology medium.

Supports may be provided out of home such as a hotel, shelter, church, or alternative facility based setting or the home of a direct care worker when the waiver participant is displaced from their home because of quarantine or hospitalization or when providers are unavailable due to illness or business closure.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

The following limitations apply to receipt of skilled nursing services:

*Skilled nursing services require prior approval by DDA.

•*Skilled nursing hours must not exceed the number of hours determined by the DDA Nursing Care Consultant's skilled nursing assessment.

Nurse delegation is an intermittent service. The Registered Nurse Delegator is required to visit and provide supervision to the registered or certified nursing assistant (NAR/CNA) at least once every ninety (90) days. If providing diabetic training, the RND must visit the individual at least once a week for the first four (4) weeks. However, the RND may determine that some clients need to be seen more often.

The department reserves the right to require a second opinion by a department-selected provider.

~~The dollar limitations for the waiver participant's IFS Waiver annual allocation limit the amount of skilled nursing service s/he is authorized to receive.~~

The rate for skilled nursing services is based on fee schedule. All payments are made directly from the single state agency to the provider of service.

Service Specification

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

Service Definition (Scope):

Supported Parenting Services: Supported parenting services are professional services offered to parents and prospective parents with developmental disabilities who are enrolled on the IFS Waiver. Prospective parents are waiver participants who are pregnant or who are in the process of adopting a child. Supported parenting offers professional services to the parent who is a waiver participant while staff/family consultation and training offers professional assistance to families or direct service providers to help them better meet the needs of the waiver participant.

Services may include teaching, parent coaching and other supportive strategies in areas critical to parenting, including child development, nutrition and health, safety, childcare, money management, time and household management and housing.

Supported parenting services are designed to build parental skills around the child’s developmental domains of cognition, language, motor, social-emotional and self-help.

In order to be qualified, providers of supported parenting services must have an understanding of the manner in which individuals with developmental disabilities best learn in addition to skills in child development and family dynamics and be one of the licensed, registered or certified professionals listed below and be contracted with DDA.

Supports may be provided telephonically or through another information technology medium.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

1) Clinical and support needs for supported parenting services are identified in the waiver participant's DDA person-centered assessment and documented in her/his person-centered service plan.

2) The dollar limitations in the waiver participant's annual allocation in the IFS Waiver limit the amount of supported parenting services s/he is authorized to receive.

Service Delivery Method

Service Delivery Method (<i>check each that applies</i>):	<input type="checkbox"/>	Participant-directed as specified in Appendix E	<input checked="" type="checkbox"/>	Provider managed
--	--------------------------	---	-------------------------------------	------------------

Service Specification

Complete this part for a renewal application or a new waiver that replaces an existing waiver. Select one:

Service Definition (Scope):

Nurse Delegation: (1) Services in compliance with WAC 246-840-910 through 246-840-970 (concerning delegation of nursing care tasks in community-based and in-home care settings) by a registered nurse to provide training and nursing management for nursing assistants who perform delegated nursing tasks.
 (2) Delegated nursing tasks include, but are not limited to, administration of noninjectable medications except for insulin, blood glucose testing, and tube feedings.
 (3) Services include the initial visit, care planning, competency testing of the nursing assistant, consent of the client, additional instruction and supervisory visits.
 (4) Waiver participants who receive nurse delegation services must be considered "stable and predictable" by the delegated nurse.
supports may be provided telephonically or through another information technology medium
Supports may be provided out of home such as a hotel, shelter, church, or alternative facility based setting or the home of a direct care worker when the waiver participant is displaced from their home because of quarantine or hospitalization or when providers are unavailable due to illness or business closure.

Specify applicable (if any) limits on the amount, frequency, or duration of this service:

1) Clinical and support needs for nurse delegation services are identified in the waiver participant's DDA person-centered assessment and documented in her/his person-centered service plan;
 2) The Department requires the delegating nurse's written recommendation regarding the waiver participant's need for the service. This recommendation must take into account that the nurse has recently examined the waiver participant, reviewed the waiver participant's medical records, and conducted a nursing assessment.

3)The Department may require a written second opinion from a department-selected nurse delegator that meets the same criteria in subsection (2) of this section.

4) The following tasks must not be delegated:

- (a) Injections, other than insulin;
- (b) Central lines;
- (c) Sterile procedures; and
- (d) Tasks that require nursing judgment.

5) ~~The dollar limitations for the waiver participant's annual allocation on the IFS Waiver limit the amount of nurse delegation service s/he may receive.~~

ⁱ Numerous changes that the state may want to make necessitate authority outside of the scope of section 1915(c) authority. States interested in changes to administrative claiming or changes that require section 1115 or section 1135 authority should engage CMS in a discussion as soon as possible. Some examples may include: (a) changes to administrative activities, such as the establishment of a hotline; (b) suspension of general Medicaid rules that are not addressed under section 1915(c) such as payment rules or eligibility rules or suspension of provisions of section 1902(a) to which 1915(c) is typically bound.
