

**The Link Center invites you to participate in its Shared Learning Groups virtual gathering series.**

These Shared Learning Groups are an opportunity to dive into important topics and tap into your expertise and experiences related to people with cognitive disabilities, including I/DD, brain injury and others, and MH conditions. These meetings will be led by members of our Steering Committee and project partners.

Please join us for our next Shared Learning Groups as we discuss  
**“Supporting The Whole Person”.**

People with co-occurring conditions require person-centered, whole person care that requires physical, behavioral, emotional, mental health, and social supports, services, and resources that aim to improve well-being and outcomes. This topic will explore personal experiences, models, strategies, practices, and resources that embrace a whole person approach to support.

**Live Captioning and ASL Interpretation will be provided during all live webinars.**

There are four sessions on the same topic for different target audiences. Please register for the session most relevant to you.

**Registration is required.**
